## CB-400F WIRE HARNESS STRAP

H/C 40123

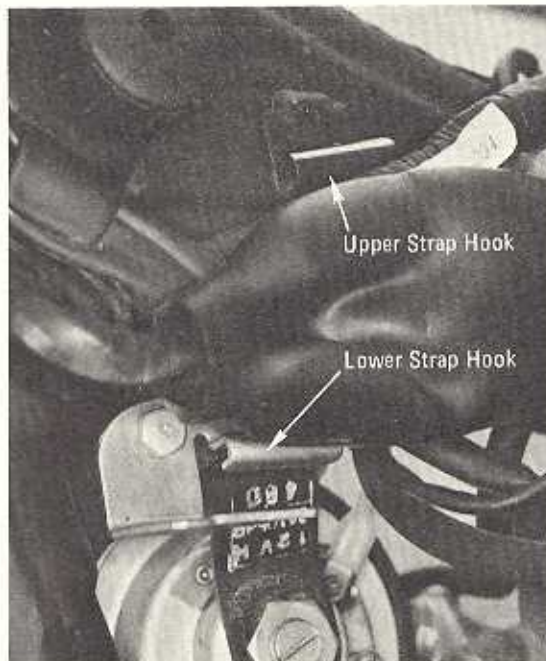

P/N 32161-377-000

Some CB-400F motorcycles have been shipped with no wire harness strap. This part is normally included with the parts package in the crate.

Wire harness straps have been sent without charge to all dealers who, according to our records, received units with missing straps.

If you have a CB-400F motorcycle missing the wire harness strap, and have not received a strap in our automatic mailing, you must then order the strap and submit a warranty claim for the missing part. Do not submit a warranty claim if you have received a strap without charge in our automatic mailing.

During new motorcycle set-up, install the strap over the wire harness, attaching strap loops to hooks on the frame, as shown below.
